DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Cochran on 8/25/05.

The application has been amended as follows:

- On the specification page 28, line 10, changed 'Fig.25' to – Fig.2B --.
- On the specification page 29, line 11, changed 'Fig.2H' to – Fig.2B --.

Allowable Subject Matter

Claims 1-45 are allowed

The following is an examiner's statement of reasons for allowance:

The Applicant argues that The Bischel prior art does not teach or suggest the limitations of the extended waveguide cavity being positioned adjacent, above, and along the length of the substrate waveguide and coupled to the substrate waveguide so that pump light from along a length of the extended waveguide cavity of the diode laser's resonator cavity is transferred into the substrate waveguide. The argument is persuasive. Indeed, the Bischel prior art fails to disclose the limitations as described above. Therefore, claims 1, 17, and 42 have been allowed over the prior art.

Art Unit: 2828

Claims 2-16, 18-41, and 44-45 have been found allowable due to their dependency on claims 1, 17, and 42.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
